

Town Supervisor's Report

June 14, 2022

Veterans Banners

37 Veterans Banners have been installed in the Village and Town. 18 more Veterans Banners will be installed by July 4th.

Town of Greenwich Summer Youth Program

The dates for this year's summer youth program are Tuesday, July 5 through Friday, August 5. Application deadline is this Friday, June 17. To date, we have received over 85 applications. We expect to have over 100 by the deadline

Washington County DMV

The Washington County DMV will be available at Town Hall from 9:30 AM to 2:30 PM on the following Wednesdays: July 13, August 10, September 14, October 12, November 9, and December 14.

Battenkill Riverside Park

Garbage receptacles and feminine hygiene receptacles have been placed in the park. Thank you to Supervisor Clerk Joanna Messina and Councilman Tom Graves for assisting in completing this project. Additional work is being done to remove a deteriorating plastic fence and fix an electrical problem in the Ladies Restroom. In the past, most maintenance tasks in the Battenkill Riverside Park were carried out ad hoc by former Councilmen Patrick and Whitehouse. Later this evening, the Town Board will discuss creating a more permanent maintenance program for the Park.

Information Technology – Cybersecurity

Symmetric is a national IT firm with several clients in Upstate New York. After a Microsoft Teams meeting with two of their representatives, they sent us an extensive questionnaire to fill out. The information we provided them will give them a better idea about our current IT infrastructure, data protection, and possible cybersecurity threats.

We are scheduled to have another Microsoft Teams meeting to discuss Symmetric's initial proposals for upgrading our IT infrastructure and minimizing cybersecurity vulnerabilities. The information gained from this process will enable the Town Board to make informed decisions regarding the Town's IT infrastructure, data backup and recovery, and cybersecurity vulnerabilities.

Health Care

Our health care provider, MVP, has informed us that the estimated premium increase for next year will be 13.5 %. We are working with our broker to examine ways to reduce that increase.

Finally, as one can see from tonight's agenda, the Town Board will discuss and potentially act on a number of issues previously discussed including creating an updated Town Comprehensive Plan that for the first time includes the Village and making final decisions on if and when a town-wide Cannabis vote will take place.
